

## TURN YOUR LIQUIDS INTO SOLIDS

### APPLICATION

- ✓ STORM WATER PONDS
- ✓ HYDRO EXCAVATION
- ✓ MINING
- ✓ HORIZONTAL DIRECTIONAL DRILLING
- ✓ ENVIRONMENTAL
- ✓ TUNNELING & MICRO-TUNNELING

## YOUR TOTAL SOLUTION FOR SLUDGE MANAGEMENT

The AproMud® range is the benchmark for drying agents.

It is composed of biodegradable organic polymers specially formulated by Aprotek to make sludge that is too liquid to be transported.

Our development know-how allows us to adapt AproMud® to all types of sludge and construction sites.

## SAVINGS BY TRUCK LOAD

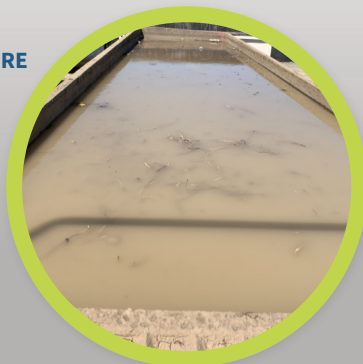

DRY SOIL

LIQUID WASTE + APROMUD®  
Less than 1.0% additive weight

The most simple and effective solution for on-site liquid waste solidification.  
Enabling you to dispose of liquid waste quickly and easily!

BEFORE

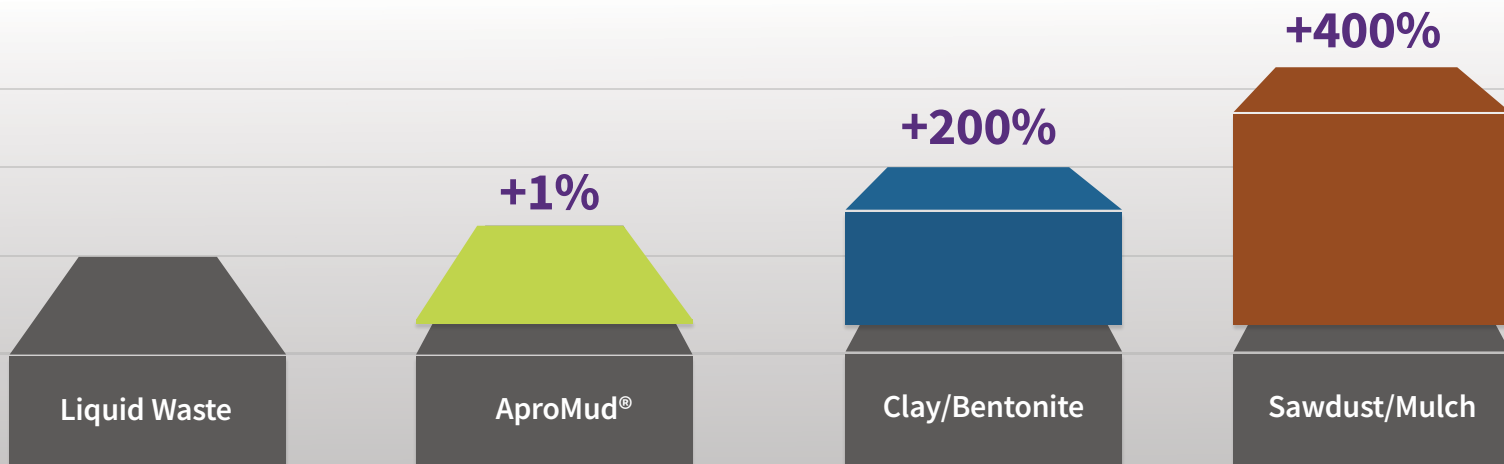

AFTER

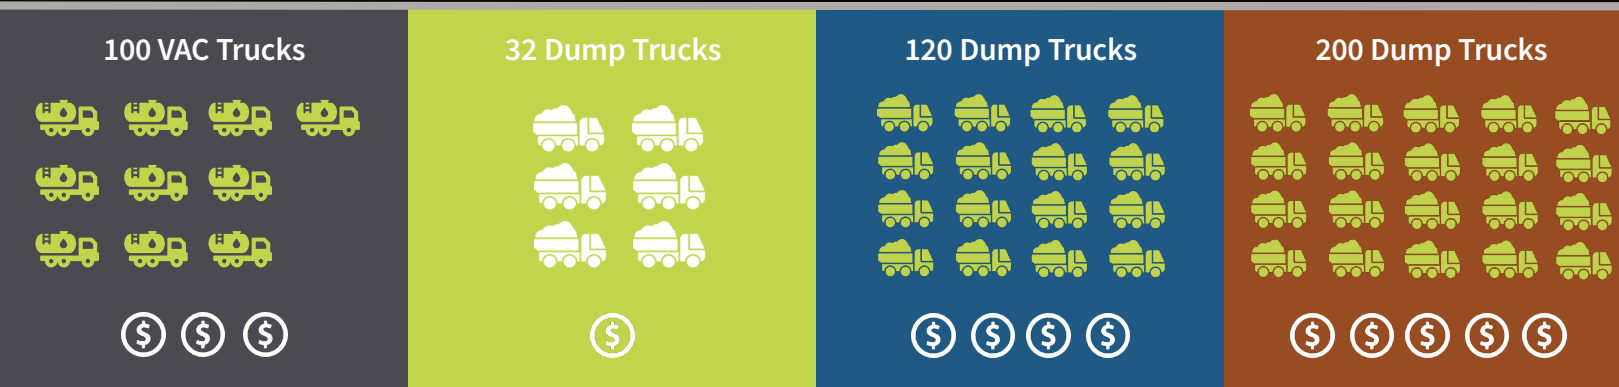

# What makes Aproték USA the best choice for liquid waste management?

- > **AproMud®** - Converts liquid waste to stackable solids in minutes.
- > **AproFloc®** - Efficiently dehydrates sludge, clarifies water and separation of solids.
- > **AproMud®** - Reduces transportation and handling costs.
- > **Colmatek®** - Helps prevents and repair leaks of any pond size and lagoons.
